

Stop wasting your topical anesthetic.

All it takes is one touch...

The One Touch Revolution topical anesthetic dispenses through a unique pump jar which gives you the exact application every time.

Eliminating the mess reduces the risk of cross contamination.

Eliminating the waste saves you money.

- 20% benzocaine formula perfect for fast and temporary relief

One Touch Revolution Topical Anesthetic Gel

Important Risk Information about One Touch Revolution

Active ingredients (in each gram)

Benzocaine 20%

Purpose

Oral Anesthetic

Use

Temporary relief of minor toothache, pain and sore mouth associated with canker sores, dentures and orthodontic devices.

Warnings

Do not use if you have a history of allergies to local anesthetics such as procaine, butacaine, benzocaine or other 'caine' anesthetics. Do not use for more than 7 days unless directed by a doctor or dentist.

Stop using and ask a doctor if swelling, rash or fever develops or if irritation, pain or redness persists or gets worse.

Do not exceed recommended dosage.

Keep out of reach of children. In case of overdose, get medical help or Contact Poison Control Center right away.

Directions

Adults and children 12 years and over. Press top of container and dispense 0.2 mL. Apply 0.2 mL of gel to the desired area using a cotton swab. Children under 12 should be supervised by an adult. Children under 2 years of age, consult a doctor.

Other information

Store at room temperature
20°-25° C (68° - 77° F).
Protect from freezing.
